The game is placed in the Arcada section, and its features are similar to those previously published by Clash Royale. Events take place online, battles take place on city sites with three teams of three players. The characters in the game represent both the heroes of the real world, and the fantasy world. Each of the heroes has characteristic qualities that help during battles with the enemy. In addition, the character can be developed by serving in battles. In the event of victory, the hero receives coins, elixirs or chips that can exchange unique abilities. But on the site you can download the hacked version of the game. The passage of different modes of transport, there are more than four of them application user receives an unlimited number of coins that can be exchanged with superpowers and be an absolute favorite during the battle. The hacking was made possible by the replacement of the private server responsible for calculating the internal currency. Thanks to this, Lrawl Stars servers do not take the purchase of coins, chips and elixirs for life.
